## **Montana Fish, Wildlife & Parks**

April 2013

Anglers,

Welcome to Northeast Montana! Well, it's the second edition of our pond fishing guide and a lot has happened since the first edition was published. The winter of 2010-11 went in the record books with record amount of snow fall in Northeast Montana. Unfortunately, the snow covered the ice on many ponds and we suffered many pond die-offs that winter. However, the snow melt combined with the wet spring in 2011 filled the ponds back up and all they needed was fish. The local biologists and hatchery staff got out and started stocking fish in ponds and reservoirs throughout the region. The result was some of the best fishing anglers have had in our area for some time. So we encourage everyone to get out and take advantage of the great fishing opportunities we have to offer in Northeast Montana.

Unlike the paper version of this guide, which can be found at FWP offices throughout Region 6, this online version only focuses on **public** prairie ponds. In keeping with the tradition of the Region 6 Ponds Guide, both the online and paper versions focus on smaller waters within the region and not the traditional large reservoirs and rivers. This guide covers information about the sampling and stocking history of individual prairie ponds. Additionally, there is a section on how we try to keep the ponds that we manage as productive as possible, with the overall goal of providing the best fishing possible. **For a hard copy of the ponds guide that includes both private and public ponds in Region 6, you can pick them up at FWP Region 6 headquarters in Glasgow or FWP Havre Resource Office.**

Ponds in our region are highly variable and are subject to changes that can go undetected to our fisheries staff. These changes could include winter kills, low water years, high water years, etc. In these cases our fisheries staff can benefit from you, the angler, by giving us feedback on fish kill events or even ponds that aren't in the booklet that may be good candidates to be added. For all the "techie" anglers, there is a Gmail account if you wish to submit comments (good or bad) electronically. The Gmail account is **R6ponds.fwp@gmail.com**.

If you have any questions or concerns about the Region 6 ponds program feel free to contact your local Fish, Wildlife & Parks office. **Havre Resource Office at 406-265-6177/Region 6 headquarters in Glasgow at 406-228-3700.**

GOOD LUCK FISHING AND DON'T FORGET TO BRING THE KIDS ALONG!!

Sincerely,

FWP REGION 6 FISHERIES STAFF

## Information about Region 6 Ponds Program

There are numerous ponds located on public lands (Federal, State and City) in Region 6. When accessing public lands make sure you are not leaving any garbage behind. Littering of any kind is illegal and may cause the public pond managers to close access indefinitely.

Sampling efforts usually take place on Region 6 ponds starting in mid to late summer and through the fall. The ponds are sampled during this time because fish are usually done with their spawning season. There are so many ponds that Fish, Wildlife & Parks manage in Region 6 that only the most popular ponds are sampled every year. Ponds that receive less angling pressure are usually sampled every 2-4 years.

Stocking efforts enhance the fishing potential in a lot of these prairie ponds. Warm water fish species are generally stocked only once with the goal of establishing a self-sustaining sport fish population. These species (largemouth bass, bluegill, northern pike, walleye, perch, etc.) generally take 2-3 years to grow to catchable size for anglers. Warm water species are generally stocked in ponds and reservoirs that have more constant water temperatures and water levels. Trout species are generally stocked annually due to their rapid growth and their inability to reproduce in these types of ponds.

## Windmill Program

Winter and summer kills of fish are common on some of these ponds due to marginal depths (usually 12 feet deep or less). A winterkill typically occurs during very cold and snowy winters that persist for a long duration. Snow-covered ice prevents sunlight from penetrating the water, which kills the aquatic vegetation in the pond. As the plant material decays it consumes oxygen in the water. That ultimately leads to a partial or entire kill of fish within the pond.

Summer kills occur when air temperatures are extremely high for several consecutive days. High air temperature will increase the water temperature in the ponds. That, in turn, reduces the amount of oxygen fish need to survive.

To reduce the effects of winter and summer kills of fish on some of these shallower ponds, FWP uses windmill aerators. The aerator pumps air through a hose into an aerating stone located in the deepest part of the pond. As the air passes through the stone it creates bubbles that rise to the surface and circulates the pond water to increase oxygen levels and helps lower temperatures during the summer months.

Fish, Wildlife & Parks currently maintains over 20 windmill aerators throughout Region 6 and we encourage anglers to contact FWP if you suspect a windmill may be broken or not functioning properly. Also, please report any vandalism to the TIP-MONT hotline at 1-800-847-6668. **Attention Anglers: Please use extra caution when ice fishing on a pond with a windmill aerator as there may be thin ice in some areas.**

## Rules and Regulations

Before heading out on your fishing adventure anglers should read through the Montana fishing regulations. Anglers fishing in Region 6 should pay close attention to the eastern district portion of the fishing regulations. Here is a list of other guidelines that anglers should follow when fishing on Region 6 ponds.

**-No fires (except at public recreation sites where manufactured metal fire rings are provided)**

## Aquatic Invasive Species Program (AIS)

The goal of the Aquatic Invasive Species Management Plan is to minimize the harmful ecological, economic and social impacts of AIS through prevention and management of introduction, population growth, and dispersal of AIS into, within and from Montana.

**STOP!** Aquatic hitchhikers & illegal introductions, our fisheries are under attack by invasive creatures. These exotic species are not native to Montana, and cause damage by threatening the diversity and abundance of native species, and disrupting the ecological stability of our aquatic habitats. With three easy steps, you can do your part to help stop the spread of aquatic invasive species like plants, mussels and whirling disease.

1. **INSPECT:** After leaving a lake or stream, inspect your boat, engine, trailer, anchor, waders, and other fishing and boating gear for mud, water, and vegetation that could carry aquatic invasive species.
2. **CLEAN:** Completely remove all mud, water, and vegetation you find. Boaters should use a pressure washer, found at most do-it-yourself car washes. The hot water helps kill organisms and the pressure removes mud and vegetation. No need to use soap or chemicals.
3. **DRY:** Aquatic invaders can survive only in water and wet areas. By draining and drying your boat and fishing equipment thoroughly, you will kill most invasive species. The longer you keep your boat, trailer, waders, and other gear outside in the hot sun between trips, the better.

-Illegal fish introductions or “**Bucket Biology**” is a continual problem and fishing opportunities are lost due to these illegal introductions. One of the leading causes, of illegal introductions is the dumping of bait buckets into the pond or reservoir after anglers are done fishing for the day. Transporting live game fish is also illegal and carries a fine up to \$5,000 and the loss of hunting and fishing privileges.

-Live nongame fish (see Montana fishing regulations for list of nongame fish, page 80) may be used as bait only in the following waters in Region 6:

**Hill County:** Beaver Creek Reservoir, Bailey Reservoir

**Blaine County:** Dry Fork Reservoir, and all BLM reservoirs

**Phillips County:** Cole Ponds, Ester Lake, Nelson Reservoir and all BLM reservoirs

**Valley County:** Fort Peck Dredge Cuts, Dredge Cut Trout Pond, Nelson Dredge, Fort Peck Reservoir and all BLM reservoirs

**McCone County:** Flat Lake and Fort Peck Reservoir

**Daniels County:** Whitetail Reservoir

**Sheridan County:** Box Elder Reservoir, Medicine Lake and Raymond Reservoir

## How to Use the Guide

Each county has an individual map that gives a general location of where fishing opportunities can be found. Each pond or reservoir is labeled with a circle (public), or a square (private) and a number.

Following the individual county map page will be a table that gives specific information about each reservoir. The table consists of a pond number (#) which will refer back to the county map, pond name, location (Township Range and Section), GPS point (Latitude and Longitude), BLM quad map the pond is located on, game fish species present, some general written directions on how to get to the water body, and other specific comments about the pond or reservoir.

Along with the county map and the information table there are individual maps for each pond. These maps give you a better understanding of the location of the pond and potential routes.

If you have any comments or concerns about maps or there's incorrect information, please contact your local Fish, Wildlife and Parks office so the problem can be corrected.

**Havre Area Office: 406-265-6177**

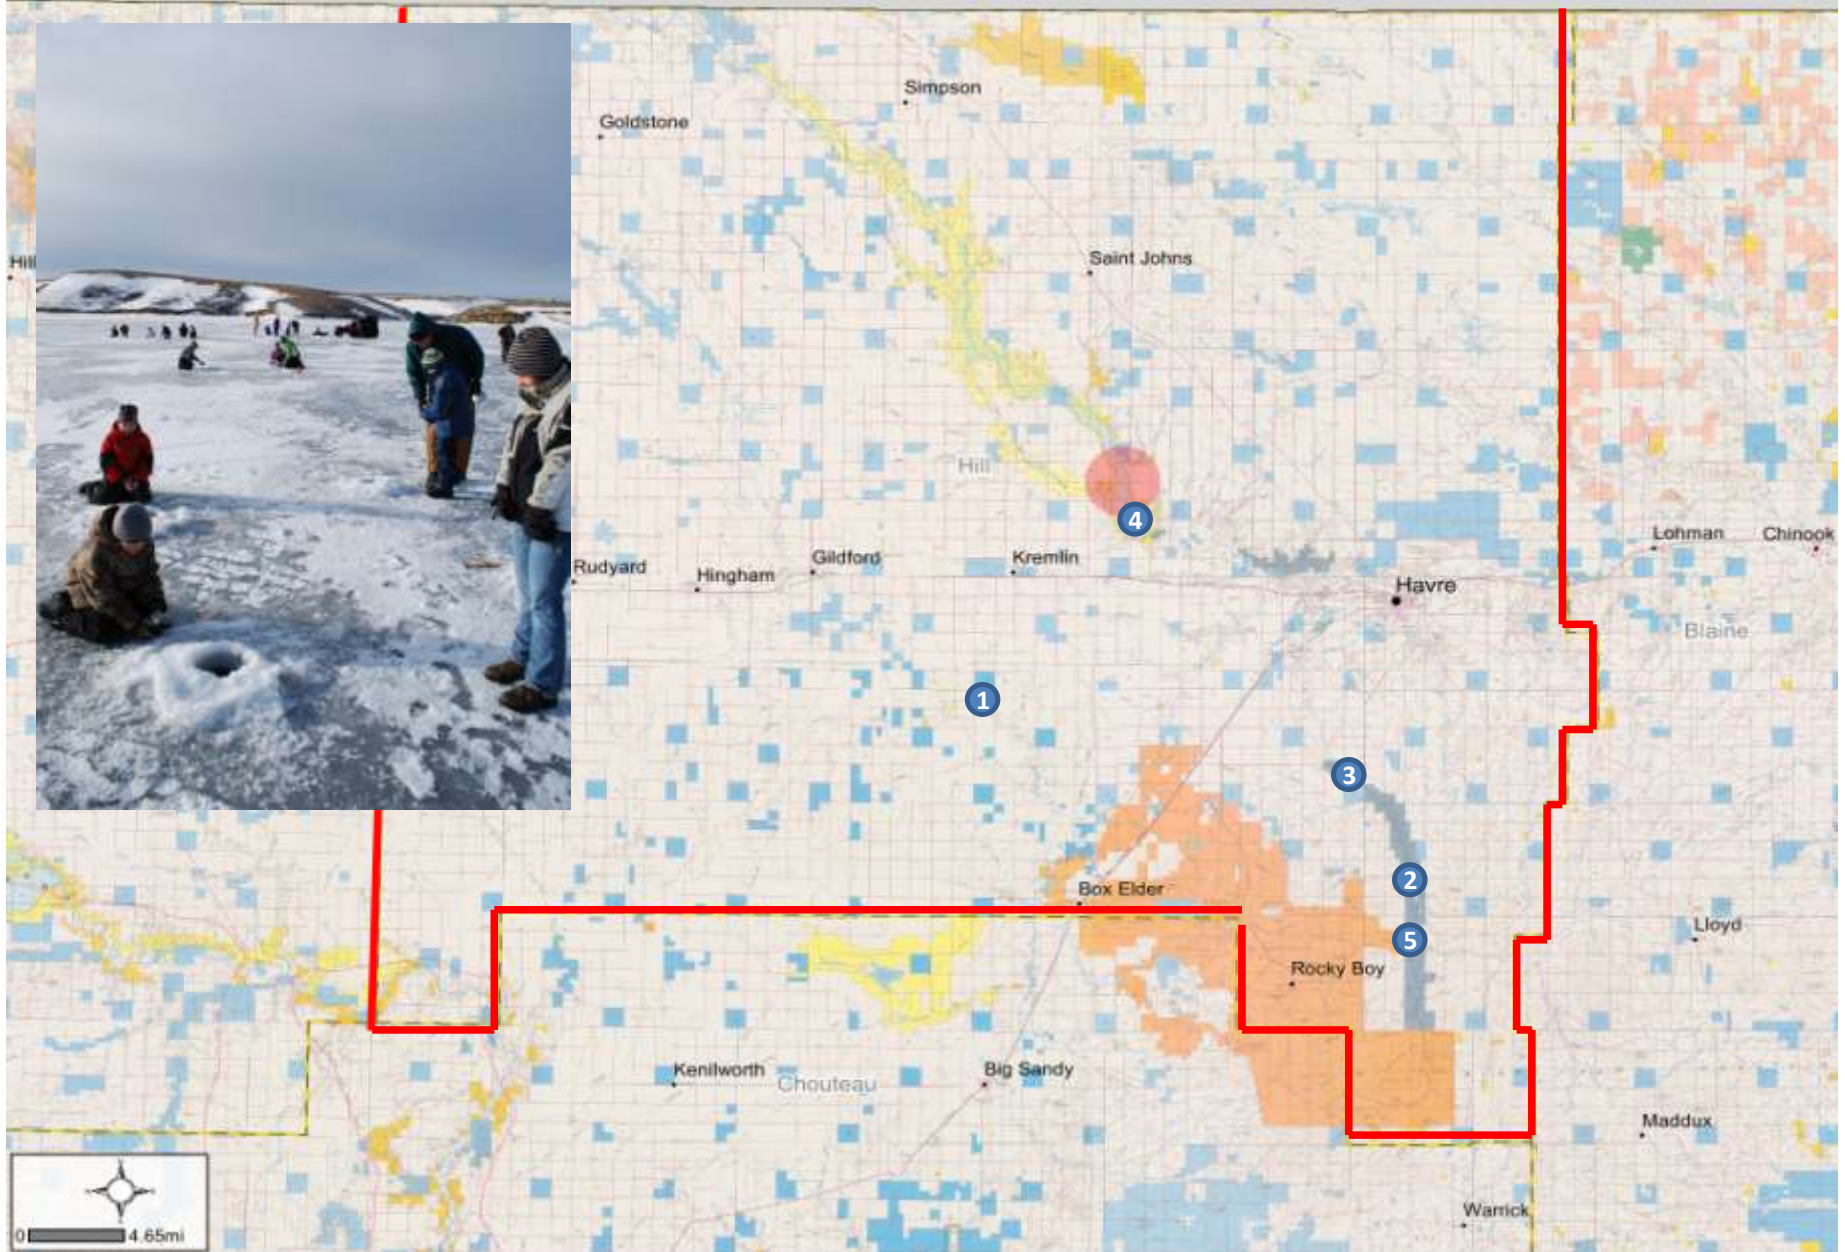

**Glasgow Office: 406-228-3700**

Pond #	Pond Name	Pond Location	Lat/Long	Ownership	BLM Map	Game Fish Species	Comments
2	South Casady Reservoir	T34N,R17E,S22	48.68650 109.49950	Federal (BLM)	Havre	Black Bullheads	10 surface acres.
<b>Directions:</b> 7.5 miles west of Chinook on Hwy 2 right onto Highland Rd, 8.5 miles left onto Cassidy Rd, 2.5 miles turn left.							
3	Burns Reservoir	T37N,R19E,S29	48.93870 109.26420	Federal (BLM)	Havre	Rainbow Trout	9 surface acres. <b>Not being managed by FWP.</b>
<b>Directions:</b> East of Chinook take Elloam Rd north 13 miles, keep right onto Anita Rd 10 miles, left onto Stowman 1mile, left on two track.							
4	Floyd Flynn Reservoir	T33N,R20E,S18	48.62800 109.15093	Federal (BLM)	Havre	Bluegill and Rainbow Trout	3 surface acres. <b>Kids Fishing Pond. Chronically dewatered.</b>
<b>Directions:</b> 3 miles east of Chinook, take Bagen Rd. north, 2 miles pond is on the right.							
6	Butch Reservoir	T25N,R20E,S02	47.95360 109.11220	Federal (BLM)	Winifred	Rainbow Trout, Largemouth Bass and Bluegill	3 surface acres. <b>Not being managed by FWP.</b>
<b>Directions:</b> From Cleveland take CR-300 6.5miles,left onto Birdtail Rd. for approx. 20 miles, right onto Cow Island Trl 4.5 miles.							
7	Choteau Reservoir	T36N,R20E,S36	48.83367 109.04694	Federal (State)	Havre	Black Crappie and Rainbow Trout	10 surface acres. The reservoir is annually stocked with 3000 finerling Rainbow Trout.
<b>Directions:</b> On Hwy 2 go west of Zurich a 0.5 mile, then turn north on Cherry Ridge Rd for 17 miles.							
9	Dons Reservoir	T36N,R20E,S15	48.87423 109.10929	Federal (BLM)	Havre	Largemouth Bass and Bluegill	2 surface acres.
<b>Directions:</b> 3 miles east of Chinook, take Bagen Rd north 19 miles, right onto Zurich Canadian Rd 1 mile, then left for another mile.							

## BLAINE COUNTY PONDS (continued)

Pond #	Pond Name	Pond Location	Lat/Long	Ownership	BLM Map	Game Fish Species	Comments
10	Dry Fork Reservoir	T34N,R19E,S35	48.67620 109.21100	Private Federal	Havre	Rainbow Trout, Black Crappie, Yellow Perch, Walleye, and Northern Pike	350 surface acres. In 2012 10,000 fingerling Rainbow Trout were stocked and 10,000 fingerling Walleyes were stocked.
<b>Directions:</b> 3 miles east of Chinook take Elloam Rd, north 4.5 miles, turn right onto Stowman Rd.							
11	Faber Reservoir	T29N,R20E,S16	48.26330 109.13557	FWP FAS	Rocky Boy	Rainbow Trout	38 surface acres, 10,000 fingerling Rainbow Trout stocked annually.
<b>Directions:</b> 20 miles south of Chinook on Hwy 240 and then 0.75 mile southeast of Cleveland on gravel road							
12	Gazob Reservoir	T26N,R21E,S13	48.01270 108.95250	Federal (BLM)	Dodson	Rainbow Trout	1 acre.
<b>Directions:</b> From Cleveland take CR-300 6.5 miles, left onto Birdtail Rd approx. 19 miles, left onto Timber Ridge Rd 6.5 miles, turn left.							
16	North Faber Reservoir	T33N,R21E,S21	48.60649 108.99012	Federal (BLM)	Harlem	Rainbow Trout, Bluegill and Largemouth Bass	7 surface acres. Annual plants of 1500 fingerling Rainbow Trout.
<b>Directions:</b> 1.5 miles east of Zurich take Oberg Rd north for approx. 2 miles.							
18	Reser Reservoir	T34N,R18E,S08	48.717061 109.39727	Federal (BLM)	Havre	Rainbow Trout, Bluegill, Largemouth Bass, Yellow Perch and Black Crappie	24 surface acres. Very good Yellow Perch densities.
<b>Directions:</b> 7.5 miles east of Chinook on Hwy 2 right onto Highland Rd, 8.5 miles right onto West Fork Rd, 2 miles left onto Reser Rd.							
20	Salmo Reservoir	T33N,R20E,S18	48.61920 109.16630	Federal (BLM)	Harve	Bluegill, Channel Catfish, and Rainbow Trout	5 surface acres. 2012 stocked with 1000 catchable Rainbow Trout.

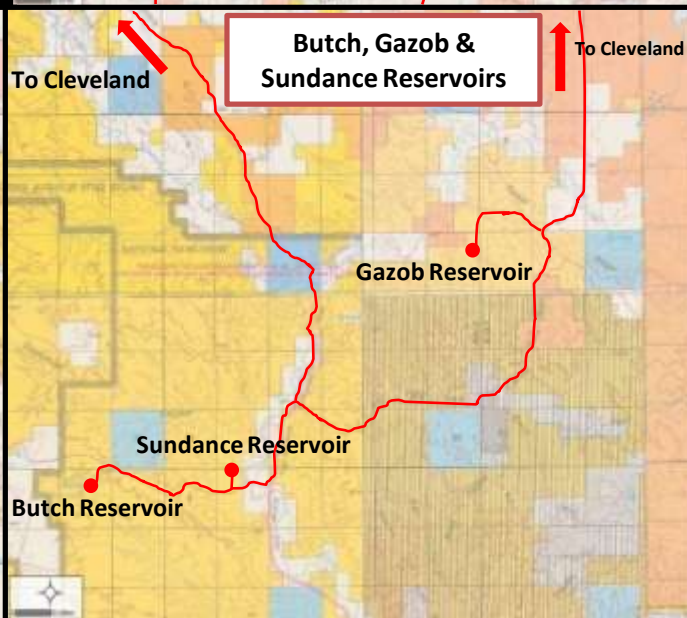

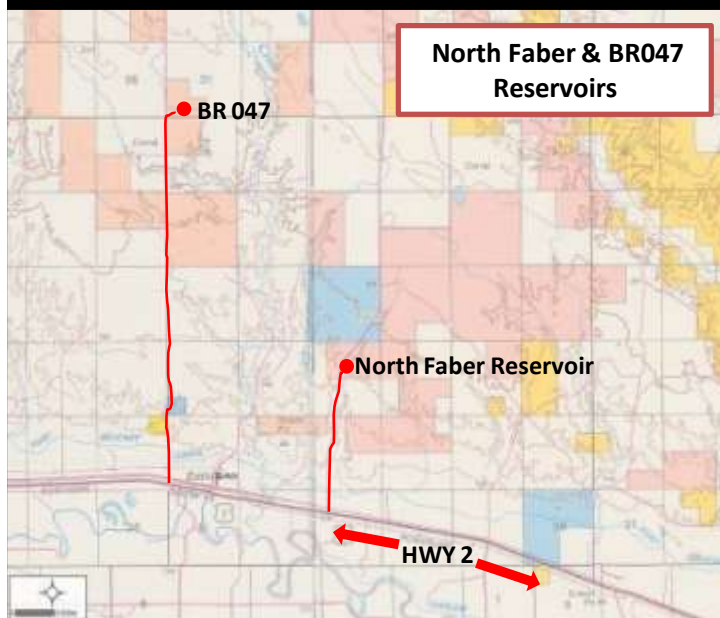

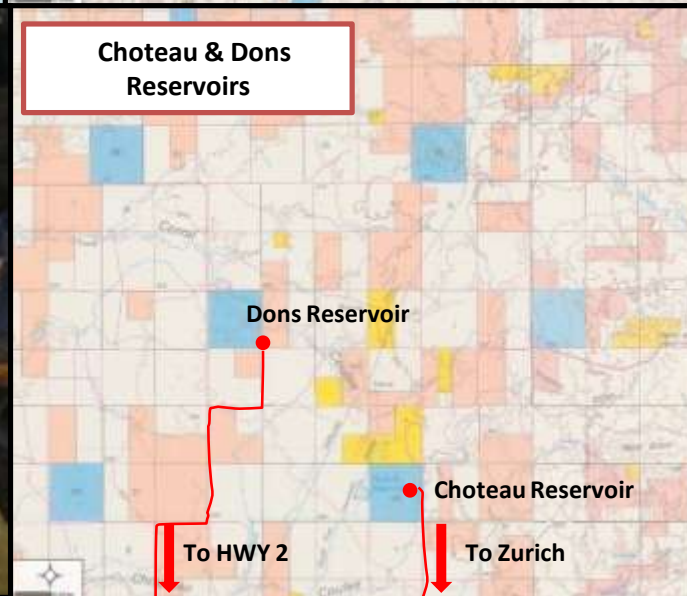

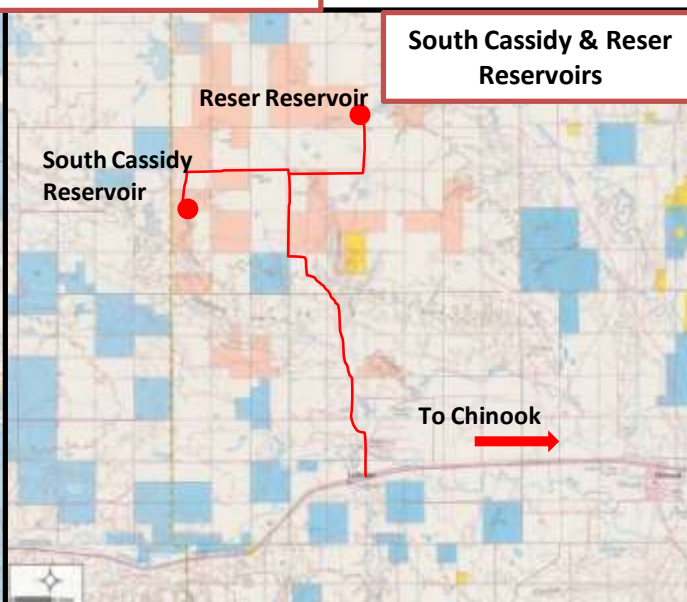

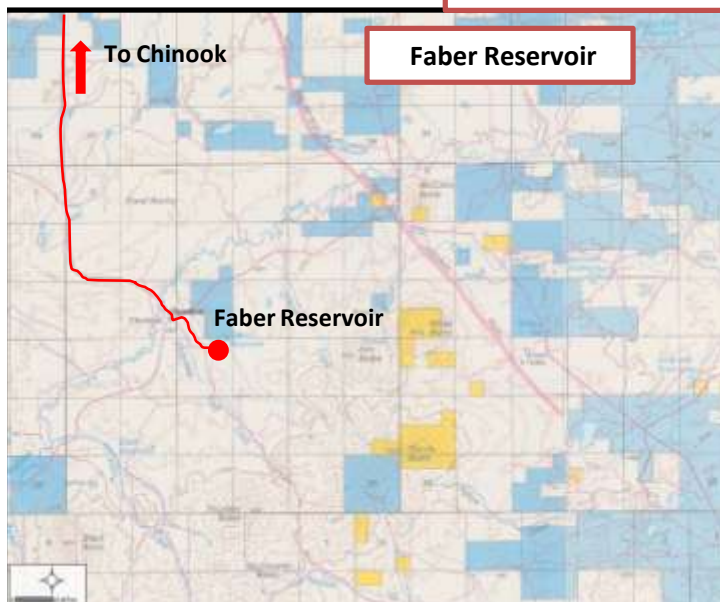

**Directions:** 3 miles east of Chinook, take Bagen Rd. north, 2 miles turn left onto two track, pond 1/2 mile.

**BLAINE COUNTY PONDS (continued)**

# PHILLIPS COUNTY PONDS

Pond #	Pond Name	Pond Location	Lat/Long	Ownership	BLM Map	Game Fish Species	Comments
1	Batosh Reservoir	T23N,R25E,S28	47.73248 108.50975	Federal (BLM)	Zortman	Rainbow Trout	2 acre reservoir. Alternate year plants of 1000 Rainbow Trout.
<b>Directions:</b> Approx. 10 miles south of Dry Fork Rd, off Hwy 191, road unmarked.							
2	Bison Bone Reservoir	T24N,R27E,S32	47.79901 108.28461	Federal (BLM)	Zortman	Yellow Perch	26 acre reservoir. Good yellow perch densities in 2012.
<b>Directions:</b> 10.5 miles on Dry Fork Rd. turn left, reservoir is another 1/2 mile on unmarked road.							
3	Bresaylor Reservoir	T23N,R23E,S20	47.73611 108.53531	Federal (BLM)	Zortman	Largemouth Bass	4 acre reservoir.
<b>Directions:</b> Approx. 10 miles south of Dry Fork Rd, off Hwy 191, road unmarked.							
4	Cole Ponds	T32N,R33E,S08	48.54242 107.46568	FWP FAS	Whitewater	Pumpkin Seed, Northern Pike, Largemouth Bass, Yellow Perch, and Black Crappie	9 acre ponds. Consists of three ponds.
<b>Directions:</b> 10 miles northwest of Saco on Hwy 243							
5	Current Reservoir	T23N,R27E,S10	47.76777 108.24447	Federal (BLM)	Zortman	Rainbow Trout	11 acre reservoir. Stocked with 3000 finerling Rainbow Trout in 2012.
<b>Directions:</b> 11.5 miles on Dry Fork Rd, turn right and follow for approx. 2 miles.							
6	Ester Lake	T27N,R27E,S16	48.09845 108.25817	State	Dodson	Walleye, Northern Pike, Yellow Perch, Crappie and Smallmouth Bass	144 acre reservoir. Good northern pike densities in 2012.
<b>Directions:</b> Take Hog Farm Rd west off Hwy 191, approx. 3.5 miles.							

## PHILLIPS COUNTY PONDS (continued)

Pond #	Pond Name	Pond Location	Lat/Long	Ownership	BLM Map	Game Fish Species	Comments
8	Gullwing Reservoir	T23N,R25E,S25	47.72180 108.46283	Federal (BLM)	Zortman	Largemouth Bass	19 acre reservoir. Biennial plants of 3000 largemouth bass.
<b>Directions:</b> Approx. 10 miles south of Dry Fork Road, off Hwy 191, road unmarked.							
9	Karsten Coulee Reservoir	T22N,R28E,S18	47.68000 108.03699	Federal (BLM)	Zortman	Largemouth Bass and Bluegill	4 acre reservoir.
<b>Directions:</b> 24.5 miles on Dry Fork Rd., right onto Midale Rd. for approx 10 miles, reservoir on right hand side.							
10	King Reservoir	T24N,R30E,S15	47.84657 107.85648	Federal (BLM)	Fort Peck Lake West	Rainbow Trout	10 acre reservoir, maintained with biennial plants of 3000 Rainbow Trout.
<b>Directions:</b> 24.5 miles on Dry Fork Rd., left onto Midale Rd. for approx. 3.5 miles keep right, 6.5 miles on Regina Rd, right 1.5 miles.							
11	Lark Reservoir	T23N,R25E,S20	47.74203 108.53055	Federal (BLM)	Zortman	Largemouth Bass and Bluegill	6 acre pond.
<b>Directions:</b> Approx. 10 miles south of Dry Fork Rd, off Hwy 191, road unmarked.							
13	Nelson Reservoir	T31N,R31E	48.49111 107.54851	Federal (BOR)	Malta	Walleye, Yellow Perch, Northern Pike, Smallmouth Bass, Crappie, Lake Whitefish	4320 surface acres. Good Yellow Perch and Walleye densities in 2012.
<b>Directions:</b> 19 miles east of Malta, turn north off Hwy 2 at Sleeping Buffalo.							
14	Paleface Reservoir	T23N,R26E,S20	47.72785 108.40574	Federal (BLM)	Zortman	Largemouth Bass, Black Crappie	6 acre pond.
<b>Directions:</b> Approx. 10 miles south of Dry Fork Rd, off Hwy 191, road unmarked.							

## PHILLIPS COUNTY PONDS (continued)

Pond #	Pond Name	Pond Location	Lat/Long	Ownership	BLM Map	Game Fish Species	Comments
15	Plutz Reservoir	T23N,R24E,S17	47.75907 108.67327	Federal (BLM)	Zortman	Rainbow Trout	6 acre reservoir. Biennial plants of 2000 Rainbow Trout.
<b>Directions:</b> Approx. 1.5 miles east of Hwy 191 on Car Auto Nature Tour Rd.							
16	PR 016 Reservoir	T28N,R26E,S12	48.09255 108.31500	Federal (BLM)	Dodson	Largemouth Bass	
<b>Directions:</b> Take Hog Farm Rd off Hwy 191 approx 5 miles, right onto Hwy 204 for 1 mile, then left for approx. 2 miles.							
17	PR 018 Reservoir	T25N,R30E,S05	47.95318 107.89620	Federal (BLM)	Fort Peck Lake West	Largemouth Bass and Bluegill	6 acre pond.
<b>Directions:</b> Take Hwy 364 south out of Malta 4 miles, right onto Regina Rd approx. 24 miles, right another 0.5 mile.							
18	PR 020 Reservoir	T23N,R30E,S01	47.78632 107.80695	Federal (BLM)	Fort Peck Lake West	Largemouth Bass	8 acre pond, Largemouth Bass are successfully recruiting within the reservoir.
<b>Directions:</b> 24.5 miles on Dry Fork Rd, left onto Midale Rd approx. 3.5 miles, right onto Regina Rd for approx. 16 miles, right 1.5 miles.							
19	PR 054 Reservoir	T37N,R30E,S17	48.95806 107.79610	Federal (BLM)	Whitewater	Largemouth Bass	7 acre pond
<b>Directions:</b> 13 miles north of Loring on Hwy 191, turn right onto ranch road another 1.5 miles.							
20	PR 161 Reservoir	T28N,R28E,S23	48.16407 108.08773	Federal (BLM)	Dodson	Northern Pike	100 acre reservoir. Very good Northern Pike densities in 2012.
<b>Directions:</b> Approx. 14 miles south of Malta on Hwy 191, east side of Hwy.							
21	Rebate Reservoir	T23N,R25E,S28	47.72642 108.52433	Federal (BLM)	Zortman	Rainbow Trout	4 acre, Trout are ranging from 6.5 inches to 15.5 inches in length.
<b>Directions:</b> Approx. 10 miles south of Dry Fork Rd, off Hwy 191, road unmarked.							

## PHILLIPS COUNTY PONDS (continued)

Pond #	Pond Name	Pond Location	Lat/Long	Ownership	BLM Map	Game Fish Species	Comments
22	Rotator Cup Reservoir	T23N,R25E,S21	47.73488 108.53448	Federal (BLM)	Zortman	Rainbow Trout	1 acre pond. The pond is maintained with alternate year plants of 1000 fingerling Rainbow Trout.
<b>Directions:</b> Approx. 10 miles south of Dry Fork Rd, off Hwy 191, road unmarked.							
23	Sagebrush Reservoir	T23N,R26E,S31	47.70731 108.41994	Federal (BLM)	Zortman	Rainbow Trout, Bluegill, Largemouth Bass	6 acre pond, supplemental stocking of Rainbow Trout may be added in coming years to augment several years of no stocking.
<b>Directions:</b> Approx. 10 miles south of Dry Fork Rd, off Hwy 191, road unmarked.							
25	Sentinel Reservoir	T23N,R26E,S18	47.76068 108.42868	Federal (BLM)	Zortman	Rainbow Trout	14 acre reservoir. Stocked with 6000 fingerling Rainbow Trout in 2012
<b>Directions:</b> Approx. 5 miles south of Dry Fork Rd, off Hwy 191, road unmarked.							
26	Shallow Reservoir	T23N,R24E,S20	47.74403 108.66598	Federal (BLM)	Zortman	Rainbow Trout	3 acre pond. The reservoir is currently maintained with biennial stocking of 1000 fingerling Rainbow Trout.
<b>Directions:</b> Approx. 2.5 miles east of Hwy 191 on Car Auto Nature Tour Rd.							
27	Spanky Reservoir	T23N,R25E,S34	47.71178 108.48335	Federal (BLM)	Zortman	Rainbow Trout	3 acre reservoir.
<b>Directions:</b> Approx. 10 miles south of Dry Fork Rd, off Hwy 191, road unmarked.							
28	Taint Reservoir	T23N,R26E,S33	47.70618 108.39721	Federal (BLM)	Zortman	Largemouth Bass, Bluegill	6 acre reservoir. Stocked with 1000 fingerling Rainbow Trout in 2012.
<b>Directions:</b> Approx. 10 miles south of Dry Fork Rd, off Hwy 191, road unmarked.							
29	Thundercloud Reservoir	T23N,R27E,S22	47.74431 108.23471	Federal (BLM)	Zortman	Rainbow Trout	2 acre pond. <b>Not being managed by FWP.</b>
<b>Directions:</b> Southeast off Dry Fork Rd approx 8 miles.							

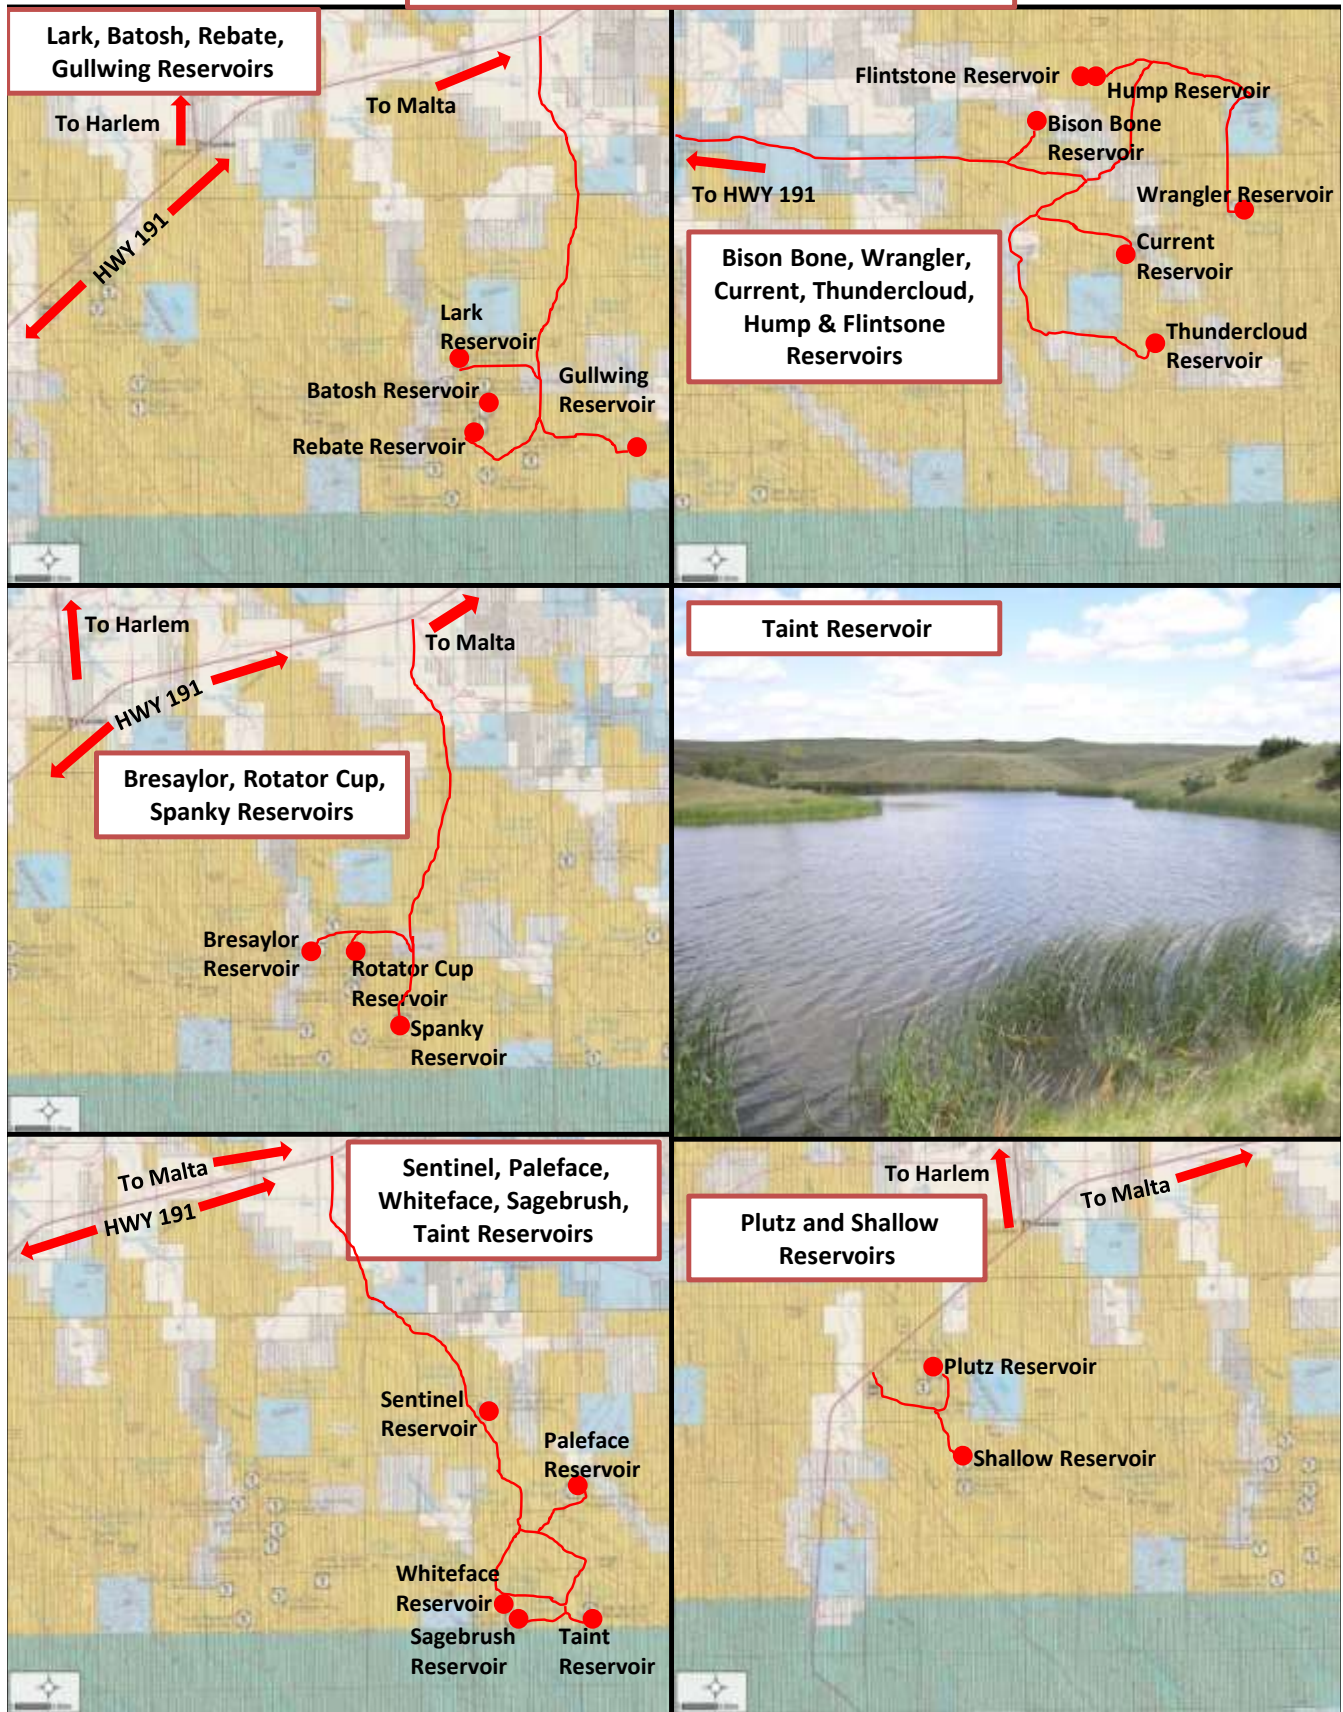

## PHILLIPS COUNTY PONDS (continued)

Pond #	Pond Name	Pond Location	Lat/Long	Ownership	BLM Map	Game Fish Species	Comments
30	Wapiti Reservoir	T23N,R26E,S33	47.74439 107.90990	Federal (BLM)	Fort Peck Lake West	Largemouth Bass	6 acre reservoir.
<b>Directions:</b> 24.5 miles on Dry Fork Rd., right onto Midale Rd. approx. 2.5 miles turn left, reservoir approx. 5 miles southeast.							
31	Whiteface Reservoir	T23N,R26E,S31	47.71681 108.43141	Federal (BLM)	Zortman	Largemouth Bass	3 acre reservoir.
<b>Directions:</b> Approx. 10 miles south of Dry Fork Rd, off Hwy 191, road unmarked.
